

# In the Net

## Post-show quiz

### Question 1

Is it true or false that bullying someone online isn't as bad as bullying in the real world?

Answer : False

### Question 2

What should children do if they are being bullied?

Answer : They should tell somebody. Maybe their parents, carers or a teacher.

### Question 3

Why should you keep your personal information safe online?

Because your personal information should be exactly that... personal. If people know things about you they can sometimes use that knowledge against you

### Question 4

What should you do if you ever get that 'Uh-Oh' feeling online?

Answer : You should tell somebody. You should shut down the screen that you have seen and tell an adult in a trice... and that means quickly!

### Question 5

Why is it important to ask permission to go online and tell an grown up what sites you're visiting.

Answer : Because the internet can be an amazing place with lots of information and fun things to do, but it can also be scary. There are some websites that are not meant for children and they can be upsetting. If you ask permission and let a grown up know what sites you're on then they can help to keep you safe.

### Question 6

Why should you be careful when chatting to somebody you've only ever met online?

Answer: Because they could be somebody like Virus! It's really easy for somebody to put up a fake picture and fake information about themselves. You should be really careful about who you have as your friends and what information you tell people. If you don't actually know someone then don't have them as your friend.

### Question 7

What should you do if you have any concerns or questions about anything that you've heard in the play.

Answer : You should ask your teachers or your parents or carers. Asking question is the best way to find out information and having information and understanding is the best way to keep safe.
